I will wait forever, for your plane to come  
I will wait eternity, for your loving smile  
And I will wait forever, whether you like it or not  
I will wait all my life, for your love and care

Friend to friend, hand in hand  
Love to love and faith to faith  
Child to child, man to man  
Dark to dark and light to light,  
I will wait and wait and wait  
Whether you like it or not  
I will wait all my life  
For your love and care

She said: learn to live, learn to give,  
Love to share. Give it anyway.  
Long, long life. Longer faith  
I would love to stay, she said:(but)

Let me go away.

Father and mother, sister and brother  
Neighbor and friend. All that you've met  
We will wait forever, whether you like it or not  
We will wait all our lives, for your love and care

She said: learn to live, learn to give,  
Love to share. Give it anyway.  
Long, long life, longer faith  
I would love to stay, she said:(but)  
Let me go away.

My mother will live forever  
Through my own eyes  
And I will live forever,  
Through my daughter's...  
Through my....children's eyes.
