Time is all we have
Peace is all we need
Stand up again
It's your life...and her life

And it's my life
I'm taking it slow
Leap from a cliff
Let the good wind blow

And it's my life
Put everything on hold
Sit on a bench
Let the peace unfold

Time is all we have
Compassion is all we need

Stand up again
It's your life...and her life

And it's my life
I'm walking again
Lay on the roof
Watch the stars and rain
The stars and the rain... beyond

And it's my life
I'm talking again
Sit on a cliff
Let the games begin

Time is all we have
Love is all we need
Stand up again
It's your life...and it's my life
