Yeah
Im hitchhiking love
Could you take me to the hills
Im not heavy no, I promise
I heard you could fly, could you try

We can drive for miles till no one can see but just you
and me (ah)
Im spending too much time on the ground baby please
show me how
How you do it, and dont ever let me down

Dont try to hide it
Cause Id see your wings if that dress was backless
Dont hide it
It aint a secret
Everybody knows you fly, fly, fly
I know you go up, go up
I wanna go up, take me up
I wanna go up, take me up
Dont try to hide it, everybody knows you fly

Oh I really ought to ask
If I need a parachute or something
Cause if you take me way up there
Ill be scared to death of falling

We can drive for miles till no one can see but just you
and me (ah)
Im spending too much time on the ground baby please
show me how
How you do it, and dont ever let me down

Dont try to hide it
Cause Id see your wings if that dress was backless
Dont hide it
It aint a secret
Everybody knows you fly, fly, fly
I know you go up, go up
I wanna go up, take me up
I wanna go up, take me up

Dont try to hide it, everybody knows you fly

Gravitys blowing up my phone dont wanna answer
Them sidewalks calling to me (yeah)
Gravitys calling my phone I cant answer
Aint no service, way up here girl
Were 25, 000 feet in the air baby
If love was sky, damn right Im falling
Falling in love, but going up

Dont try to hide it, cause I see your wings
If that dress looks fabulous, dont hide it
It aint a secret
Everybody knows you fly, fly, fly
I know you go up, you go up
I wanna go up, take me up
I wanna go up, take me up
Dont try to hide it, everybody knows you fly

Show me how you do it, how you show me up
Show me how you do it, how you show me up
Show me how you do it, how you show me up
Show me what
Show me what
Show me what
