Yeah
I'm hitchhiking love
Could you take me to the hills
I'm not heavy no, I promise
I heard you could fly, could you try

We can drive for miles till no one can see but just you
and me (ah)
I'm spending too much time on the ground baby please
show me how
How you do it, and don't ever let me down

Don't try to hide it
Cause I'd see your wings if that dress was backless
Don't hide it
It ain't a secret
Everybody knows you fly, fly, fly
I know you go up, go up
I wanna go up, take me up
I wanna go up, take me up
Don't try to hide it, everybody knows you fly

Oh I really ought to ask
If I need a parachute or something
Cause if you take me way up there
I'll be scared to death of falling

We can drive for miles till no one can see but just you
and me (ah)
I'm spending too much time on the ground baby please
show me how
How you do it, and don't ever let me down

Don't try to hide it
Cause I'd see your wings if that dress was backless
Don't hide it
It ain't a secret
Everybody knows you fly, fly, fly
I know you go up, go up
I wanna go up, take me up
I wanna go up, take me up

Don't try to hide it, everybody knows you fly

Gravity's blowing up my phone don't wanna answer
Them sidewalks calling to me (yeah)
Gravity's calling my phone I can't answer
Ain't no service, way up here girl
We're 25,000 feet in the air baby
If love was sky, damn right I'm falling
Falling in love, but going up

Don't try to hide it, cause I see your wings
If that dress looks fabulous, don't hide it
It ain't a secret
Everybody knows you fly, fly, fly
I know you go up, you go up
I wanna go up, take me up
I wanna go up, take me up
Don't try to hide it, everybody knows you fly

Show me how you do it, how you show me up
Show me how you do it, how you show me up
Show me how you do it, how you show me up
Show me what
Show me what
Show me what
