

Frank Ocean "Not Just Money"

Visit "[Not Just Money](#)" on MotoLyrics.com

Stop thinking of this as being money
It's just money, I'mma make more
Please decondition yourself
It's the difference between happy, being happy and
sad
It's the difference between having a home and living
on the streets
That's what it is, it's not just money
It's so much more than that
Right now it's the difference between you being able to
go to a prom
And disappointing a girl
As I told you from the beginning, I don't have money
I have bills to pay, but that meant nothing to you
Ooh yeah, I'mma make myself a hot link when I get
home
It meant nothing to you
Savin' my seven dollars
