No baby no give me that
Dont touch that
Could you please be still (baby stop)
No baby you cant have that
Until you eat your dinner
Guess I got to feed you

Like a baby girl
Youre the cutest, youre the cutest thing
But you cant always get your way
Like a baby girl
I want to keep that smile on your face, oh boy
But it ain't easy, you dont make it easy

Youre old enough to drink
But when it comes to love you think just like
A two year old terror
Twenty Two year old terror
Temper tantrums out of bound
Cause you want it when you want
Like a two year old terror
Twenty Two year old terror

Now you know you should be sleeping but ok
Ill give you ten more minutes
Weve been sleeping in the same bed
Cause you been having nightmares
And you need me here, I guess I always treat you

Like a baby girl
Youre the cutest, youre the cutest thing, oh yeah
But you cant always get your way
Like a baby girl
I want to keep that smile on your face, oh ha
But it aint easy, no it aint easy

Youre old enough to drink
But when it comes to love you think just like
A two year old terror
Twenty Two year old terror
Temper tantrums out of bound

Cause you want it when you want
Like a two year old terror
Twenty Two year old terror

Youre old enough to drink
But when it comes to love you think just like
A two year old terror
Twenty Two year old terror
Temper tantrums out of bound
Cause you want it when you want
Like a two year old terror
Twenty Two year old terror

You want love, well no more sugar for you
You dont know to act, so no more sugar for you
Youre jumping off the walls, no more sugar for you
I said aint no sugar for you
Well just a little bit but

Youre old enough to drink
But when it comes to love you think just like
A two year old terror
Twenty Two year old terror
Temper tantrums out of bound
Cause you want it when you want
Like a two year old terror
Twenty Two year old terror

Youre old enough to drink
But when it comes to love you think just like
A two year old terror
Twenty Two year old terror
Temper tantrums out of bound
Cause you want it when you want
Like a two year old terror
Twenty Two year old terror

[Until fade]
Love my baby but
She terrorize me
Yeah oh but yeah
I love my baby
But she terrorize, te-terrorize me
