Babe, just say you miss me, is it that hard?  
Too long since I've heard about our love  
Am I in this by myself? Hey yeah  
With rose colored lenses on my store bought frames  
To see something other than these blues and grays  
I need something different, hey yeah, yeah, yeah  
Cause you ain't feeling the same

Who knows, maybe I'm crazy, that's one big maybe  
But even a fool knows when it's gold, gold, gold  
I know pyrite from 24 karat, yeah  
Cubic's from genuine diamond, yeah  
A call from the woman who loves you and hello from a  
friend  
I know when it's real, I know how to tell  
I know the difference between what you say and how  
you feel  
Oh, oh I know when it's real

Oh, I can tell the difference every time that you call  
But I don't need a drink, I need some time in my car  
Time to drive and think, time to park and cry  
You shoulda known you were beautiful  
You shoulda known what I saw in you, yeah  
Please forgive me for feeling like it's all your fault  
A heavy heart can't carry blame for the loss

Who knows, maybe I'm crazy, that's one big maybe  
But even a fool knows when it's gold, gold, gold  
I know pyrite from 24 karat, yeah  
Cubic's from genuine diamond, yeah  
A call from the woman who loves you and hello from a  
friend  
I know when it's real, I know how to tell  
I know the difference between what you say and how  
you feel  
Oh, oh I know when it's real

You might not notice but I'm a man with pride  
And this hurts me baby deep down, deep down  
I can't let go of this, gotta know I tried

It's pathetic baby don't lie, don't lie  
I'm a candle, you're the sun  
And you're burning up baby, you're burning up baby  
Burning up, burning up  
Burning up, burning up, burning up, yeah

I know pyrite from 24 karat yeah  
Cubic's from genuine diamond yeah  
A call from the woman who loves you  
And hello from a friend  
We'll never be more than friends  
We'll never be...
