Hey, what's the matter? Nothing's the matter.
That's why I can't leave my house.
You must get lonely. No. I don't get lonely. So...
That's why I can't leave my house.
Well... Head into the city? Well, I guess it can't hurt.
Nothing's on the television. On the networks.
Take me outta context. Take me outta here.
Put the windows down. Swing it down. Really tune it out.
There's somethin' goin' on, but I don't know where.
You're playin' w/ your telephone.
You're playin' w/ your hair.
The record seems broken.
Yeah, I really don't care.
Put the windows. Swing it down. Really tune it out.

Do it again! D-d-d-do it again!
Do it again! D-d-d-do it again!
Same club, same verdict.
Same DJ.'s workin'.
Feels like I've been here before.
Haven't you heard it? No.
I don't think I heard it.
I'd like to hear it some more.
Head into the city? Well, I guess it can't hurt.
Nothin' on the television. On the networks
Take me outta context. Take me outta here.
Put the windows down. Scream it down. Really tune it
out.
D-d-d-do it again!
D-d-d-do it again!
Do it again!
D-d-d-do it again!
Do it again!
D-d-d-do it again!
Do it again! D-do it again!
