Started out with once upon a time  
Little princess came into this life  
An illusion of perfection  
She had it all  
Money, looks, and friends  
Till the day her world  
Her world came crashing down to an end

(Chorus)  
This is no fairy tale, this is reality  
Might not be what you're ready to see  
No fairy tale, no fairy tale, yeah  
This is no perfect dream  
Even though you cannot see  
This is all true about me  
True about me, yeah, yeah, yeah, yeah

Since that day my world was a broken life  
Everything was wrong  
Couldn't make things right  
It was shattered like glass  
Luckily I had that perfect beginning  
Maybe if things get better I'll have, have a  
happy ending

(Chorus)

Love, love  
Hate, hate  
Tears, tears  
Heartbreak, I said heartbreak

(Chorus)

Yeah, Yeah, Yeah
