Killing me

I wanna know if you can turn me out
Tip me over back and drink me down
You can't rape the willing so baby take me
Take me, take me, blow me away

I wanna see what it's like
Oh right there, yeah that's right

The curiosity is killing me
The curiosity is killing me

I wanna know, wanna know how you do it
I wanna know, wanna know how you use it
Sugar and spice, make it naughty and nice
I wanna know, wanna know come and prove it
I wanna see, wanna see you lose it
I just want to taste your sex
