Ill watch your back.  
When everybody else is gone.  
Its clearer.  
You were right all along, when you said.  
Love fades, but its still real.  
It can always.  
You can stay here.

LOVE  
Ill watch your back.

Ill keep the light. (keep the light in your eyes)  
Burning in your eyes. (bring me back to yourself)  
Ill keep the beat. (until you breath the light)  
Bumping in your heart.  
Like you said, love fades, but its still real.  
It can always, you can still feel.

LOVE  
Ill watch your back.(Ill watch your back, when everybody  
else is gone)

LOVE  
Ill watch your back.
