"High Up Your Tree"

Visit "[High Up Your Tree](#)" on MotoLyrics.com

By the look in your eyes i can tell all is lost and you're
leaving
So come down from your tree and join in with the circle
you keep in

I am so touched by your love
you could lead me astray
I could meet you down river on a lonely day
By the look in your eye I could tell you're not mine
today

Don't pass me by
You're looking at me like I'm from mars
Just can't let you pass me by
And if all the love I have could make you laugh
And if all the tears I cried could make it better

I've lost and it cost
I've found the makings of a man
I am so touched by your love
you could lead me astray
I could meet you down river on a lonely day

Don't pass me by
You're looking at me like I'm from mars
Just can't let you pass me by
And if all the love I have could make you laugh
And if all the tears I cried could make it better
And if all the things I do
Should break your heart in two
Then the love I'd give back to you
Would last forever
