Whatever helps you thru' the night  
my paws keep going to turn on the satellite  
always look to the positive  
I don't feel the pain when I'm watching the title fight  
how could I ever want to disown you?  
I want to love and to have and to hold you  
all the good in the world and you keep it under your  
thumb  
amphetamines will keep you thin  
my heart beats fast and I'm climbing the walls again  
I've been talking for miles on end  
or is it because everybody is a friend  
how could I ever want to disown you?  
I want to love and to have and to hold you  
all the good in the world and you keep it under your  
thumb

(chorus)

I have my freedom and while I'm living  
I know the world can't touch me  
I could wait forever, love in vain yeah  
I will have you when your birthday comes

I am the sundance kid coming to you in the grooves  
with a positive  
is it because our talent's shining, bound by the empire,  
follow the eskimo  
how could I ever want to disown you?  
I want to love and to have and to hold you  
all the good in the world and you keep it under your  
thumb

(chorus x2)

I have my freedom while I'm living  
I know the world can't touch me  
I could wait forever, love in vain yeah  
I'll have you when your birthday comes
