I don't even know why I'm trippin
Cause you're gonna do your thing, so it don't make a
difference
And I aint gonna change, I'ma stay on this mission
A big back yard, few cars and a kitchen
I wanna put you in and take some minutes before the
pop off
I bet you look cute in the coupe with the top off
If you aint gonna ride this train, you should hop off
Cause if it aint real, baby girl it's a knock off
Though I swear you're the one that I wanted
That's why I'm like girl just live in the moment
Cause I aint ever felt this way about a woman
You play a big part in the man I'm becoming

But baby please, if you really wanna leave maybe now
is the best time
Cause I can't make you believe I didn't gave you my
best lines
And all I got right now is a flow and I can see that you
need more
But I could play you six in a row
Right now, all I got is the flow

Is that good enough for you girl?

Please don't miss what I'm saying
I'm far from a kid and I'm so not playing
I never felt the heart so cold, Himalayan
You're throwing in the towel right before the weigh in
You don't even see that I do before the knock out
I put in the work, its too early to clock out
So shorty, lay back, be cool, we gon' rock out
This thing is too loud, and it's so hard to block out

And we board the 747, fly the way
If we fly this plane, come and take my side away
Cause I aint gotta see, I could feel that you want it
So please don't be afraid of whatever we're becoming
woman ooh

If you really wanna leave me maybe now is the best

time
Cause I can't make you believe I didn't gave you my
best line
And all I got right now is a flow and I can see that you
need more
But I could play you six in a row
Right now, all I got is the flow

And I'ma let it breathe, I'ma let it breathe like a breeze
through the tree tops
I'ma let it breathe, I'ma let it breathe, do you love me,
love me or not?
I'ma let it breathe, I'ma let it breathe like a breeze
through the tree tops
I'ma let it breathe, tell me do you love me

If you really wanna leave me maybe now is the best
time
Cause I can't make you believe I didn't gave you my
best line
And all I got right now is a flow and I can see that you
need more
But I could play you six in a row
Right now, all I got is the flow

Is that good enough for you girl?
