I'm at your disposal
Put it in your hands (Oh yeah..)
You give me the greenlight
And you know I'll be right
There for you to claim my share (But baby..)
Don't even trip, 'cause i know what it is
I aint gonna blow your spot
I'll pretend that it's all just innocent
When i know it's really not

So do what you will
And i look the other way
Keepin' it real
Isn't that what you always say to me
Couldn't have said it more clearly
All them other girls you had in the past
You were just hittin' though
You was gonna get right back to us (To love..)
So I'll keep my mouth shut
What ever works for you
And I guess Ima go along with
'Cause baby Im in love with you
So it don't make a difference
'Cause I was lookin' for love
In all the wrong places
Round two, now I can't seem to shake this
(So..)Guess I gotta pay the cost, so its
Whatever works for you

One day you'll be sorry
I won't be around no more
Just to play the background
Oh no, I ain't that down
Proven[?] that my heart is yours
Soon as a break from that hole
That you got on
Me, Ima be alright
Even though I love it,
I won't be your puppet
Only play with me at night

So do what you will
And I look the other way
Keepin' it real
Isn't that what you always say to me
Baby keep foolin' me, and i'll turn the other cheek
All them other girls you had in the past
You were just hittin' though
You was gonna get right back to us (To love..)
So I'll keep my mouth shut
What ever works for you (For you..)
And i guess lma go along with
'Cause baby Im in love with you
So it don't make a difference
'Cause I was lookin' for love
In all the wrong places
Round two, now I can't seem to shake this
(So..)Guess I gotta pay the cost, so its
Whatever works for you

(For you.. ohhh..
Whatever works for you,
baby that's what i'll do..)

So I can hold on a little bit longer
Even though my feelings gets stronger
But I can't even lie, I'm in love with you
Whatever works for you
And i guess lma go along with
'Cause baby I'm in love with you
So it don't make a difference (It don't matter...)
'Cause I was lookin' for love
In all the wrong places
Round two, now I can't seem to shake this (Shake it
out...)
(So..)Guess I gotta pay the cost, so its
Whatever works for you

Guess ima go along with..
Cause baby im in love with you..
So it don't make a difference..
