"Oh, oh oh ohhh*

Ohh ohh oh.

Oh oh oh ohhh.

Ohh ohh oh."

Well it's about time that we made a stand
And started playing together in our own band
And it's about time that we made a promise
And starting looking for homes not near to the forest.
Well its about time that we made back friends
So we could be together to the very end
And its about time that we got things done
So we could do anything and then have some fun.

We're waiting outside (2x)

For you to come out tonight (2x)

We're waiting outside (2x)

For you to come out tonight (2x)

well it's about time that we made a stand
and started playing together in our own band
and its about time that we got things done
so we could do anything and then have some fun.

we're waiting outside x2

for you to come out tonight x2

we're waiting outside x2

for you to come out tonight x2

well its about time

and it's about time

we're waiting outside x2

for you to come out tonight x2

we're waiting outside x2

for you to come out tonight x2
