We can only try our best*
Every time i see you i love you less
We have to endure this it could be a test
But in the end its all a mess
I wrote this song with you in mind
You will never be impressed
The more.?
We can get through this so should we invest?
Let's get things off our chests.
I wrote this song with you in mind.
I have to say you're awfully unkind to me
I wrote this song with you in my head.
There comes a point when i wish that you were there.
I can't give you all my trust
And do I still I still love you or is it just lust?
We can get through this its just a phase.
But I can see that things won't change.
i wrote this song with you in mind
