"Ghost"

Visit "[Ghost](#)" on MotoLyrics.com

What a vision, mirage and a dream
So close and yet so far from me
Light up the world of those you meet
Break their hearts with your naivety
Teach them to forgive with just a smile
Never let them see the you that cries
Taught me how to live without regret
Changed my life with the things youâ€™ve said

Mmm
The city lights have died
The coming of dawn is taking your memory home

CHORUS
Ghost I love you so
I want you to know
Iâ€™m trying to let you go
But it ainâ€™t easy
So please forgive me for holding on

Love and life, it shined in your eyes
I wanted my place to be by your side
Spent the night when I heard the news
Mourning the love that we never knew
You leave us behind and leave the light on
So we can find our way back home
A voice in the night says itâ€™s ok
Knowing that we will meet again

CHORUS

Shine in the spark you had in your eyes
Remind me that this is not good-bye
I want to believe you loved me too
Ghost I believe, believe in you
I ran out of time and ran out of days
To tell the things I had to say
Chasing you in dreams is the only way to say

CHORUS and OUT
