CHORUS1

Round and around love
Youâ€™™ ve got me spinning
Round and around love
Ohhh hiii
Round and around love
Youâ€™™ ve got me spinning
Round and around love!

Get a little bit closer baby
Lets dance beneath the stars
Do you remember us yearning for truth
And we wanted to be needed to believe in
Destiny

CHORUS

Round and around love
You had me spinning
Round and around love
Oohh iii
Round and around love
You had me spinning

Took a little bit of faith my lady
But we held on from the start
Now we made to the moment of eternity
Nothings gonna take away our serenity
So remember that our love will always be
The center of our unity

Darling
We are where we belong now
Darling
Like the earth around the sun
Turning
It feels like the beginning
Loving
The life I have with you (You) you (You) yoouuu!!!!
