And I remember the first time that we held hands
Oh I'd wish I could go back
To that exact moment in time where the moonlight
shines,
Reflecting in your beautiful eye

I'd wish that this moment will never leave
I'd wish that this moment will stay with me forever

And I remember when we sneak off to our hiding place
In the autumn time, in the autumn sky
We would lay there for hours and hours on
And that's when I told her "I love you" 'til the very...

And we'll get through this... [x3] I swear!

Please don't leave now, stay with me somehow... Yeah!
I swear!
