Let's burn down the cornfield
Let's burn down the cornfield
And we can listen to it burning
You hide behind the oak tree
Go on hide behind the oak tree
And stay out of danger
Till I turn

Oh it's so good on a cold night
To have a fire that's burning warm and bright
So you hide behind the oak tree
Go on hide behind the oak tree
And stay out of danger

Till I turn on

Oh, it's so good, so good, so good
On a cold, cold night to have a fire
Let's burning warm in time
So let's burn down the cornfield
Let's burn down the cornfield
And I make love to you
While it's burning
And I make love to you
While it's burning
I make love to you while it's burning
Burning
