"Truth And Love"

Visit "[Truth And Love](#)" on MotoLyrics.com

Looking up, reflecting a picture of the summer sky
It's a perfect setting across the ocean sight
You're the only thing I need in the center of my eye
I'll never say goodbye

And the best part is I'm not alone
I plan I never coming back home

This summer is going to be the best part of the year
I hope it last forever, so you don't leave dear
Can't you see my feelings for you are all so clear
Don't move away from here

Don't move away from here (Don't move away from
me) my dear

And your beauty makes me weak
I want you in arms, so I can fall asleep
And your beauty makes me speak
Truth and love from all the stars above
