Oh here you go
Due on the stage for another marionette show
Just when
You thought you could fight this battle
They moved the sunset strip
To Seattle

It's like a Blackout in California

And then somebody left the door open
After 15 drummers and 22 Les Pauls broken
He said Son, we're gonna make you a star
Like Tom Petty, Gene Simmons, and The Cars

Until a Blackout in California
It's like a Blackout in California yea

I'm on your plane finding my rage
In your life story, I'm just one page

It's like a Blackout in California
It's like a Blackout in California
