I can tell how you want trouble
I can tell you think you're flash
I know you think you're fucking/pretty great
But I don't care about that trash, because

Just one look at your face
Just one look at your face
Just one look at your face
I Got to get out of this place

Because you're looking for fuss 'n' bother, oh yeah
Don't come tryin' to start a fight
'cause you think you're the greatest thing since sliced
bread
You might be a hit with all the girls
But that won't help you when I break your head, 'cause

Just one look at your face
Just one look at your face
Just one look at your face
I Got to get out of this place

You say you're looking for fuss 'n' bother, alright
You're gonna get it now

One - two - three - four
Just one look at your face
Just one look at your face
Just one look at your face

Don't give me no fuss and bother
Don't give me none
Don't give me no fuss and bother
Don't give me none
Don't give me no fuss and bother
Don't give me none
Don't give me no fuss and bother
Don't give me none
