I decided that this is no place to hang around
Can't get excited, I don't like living in this town
I don't like living among the dead
Everybody's so boring, swaying in their bed

Everybody I know has been dead in years
They can't laugh or swear, can't even cry no tears
Don't wanna stay here with all the dead
Everybody's so boring, nothing in their heads

And all the old men go down the pub
And all the young men smoke dope and listen to dub
And it's a London office job or a sausage factory
You know they're gonna get you boy, but they'll never
ever ever get me
'Cause I can't stand it and I ain't gonna hang around
If I had a chance I'd burn this shithole to the ground
Don't wanna stay here with all the dead
Everybody's so boring, nothing in their heads

And we're living and dying and I don't know why
It's just that it's senseless, underneath the English sky
I'm gonna go to the smoke and leave it all behind
I'm gonna get away from here before I lose my mind

We're living in a ghostown (8 times)
