???

???

???, But you won't let me forget you

And every time I try to please you, you just sigh

Baby that is why, I love to make you cry

I love to make you cry

I love to make you cry

I like y'to cry cry cry

When your tears fall down like rain

I feel like a kid again

Baby baby that is why, I love to make you cry

I love to make you cry

Well I know you're gonna sob

And you're heart is gonna be dead

I hate ya 'cause I love ya

And I hate ya 'cause I need ya

And every time I try to please you, you just sigh

Baby that is why, I love to make you cry

I love to make you cry

I love to make you cry

I like y'to cry cry cry

When your tears fall down like rain

I feel like a kid again

Baby baby that is why, I love to make you cry

I love to make you cry

When your tears fall down like rain

I feel like a kid again

Baby baby that is why, I love to make you cry

I love to make you cry

I love to make you cry

Cry cry, gonna make you cry girl

Cry cry, gonna make you cry now

Cry cry, gonna make you cry girl

Cry cry, gonna try and try to make you cry
