I'm walking down the street with my head in my hands
I've got no cash to spare
I've no booze, no beer, no drink, no baby
It's drove me round the bend
I'm in a state of desperation
I can't take it baby
I'm just living like a nervous wreck
I think I'm going crazy

Well I've gotta get a pill just to make me feel good
It drove me out of my mind
The doctor says I'm a degeneration
Says I'm going blind
The doctor says I'm out of control
He's gonna put me in his army
I'm just living like a nervous wreck
I think I'm going barmy

He's just living like a nervous wreck
He thinks he's going barmy

Now I'm really out of my brain
They're kicking me out of this place
They're kicking me in the you-know-what's
They're kicking me in the face
I'm just living like a nervous wreck
I can't take it baby
I'm just living like a nervous wreck
I think I'm going crazy

I think I'm going crazy
I think I'm going crazy
I'm going crazy
I'm going crazy
You gotta get me to the shrink on time
You gotta get me to the shrink on time
You gotta get me to the shrink on time
Cause I'm out of my mind
