Discos and working, working so high (???)
Looking up and down at every guy
Pissing down ???
A look that ???

I don't know what she's going to
I don't know what she's gonna do
No, she isn't very cute
She's my venus in bover boots
She's my venus in bover boots
In bloody black big boots
Hey hey hey hey

Well I've been told that she's gonna screw
But I don't know where and I don't know who
I guess that she's just as free as a bird
Never even says a fucking word

I don't know what she's going to etc.

I don't know what she's going to
I don't know what she's gonna do
And no, she isn't very cute
She's my venus in bover boots
She's my venus in bover boots
She's my venus in bover boots
And bloody great tall thighs
Venus in bover boots
