If you want to call, don't  
Don't come crawling up to my back door  
We've tried that before

If you think I will, I won't give an inch  
'Cause you'll take me miles from home  
Now you're on your own

I got one foot in front of the other  
All I know is what I know  
And the one thing left that keeps me together  
Will get me over or won't change nothing at all

If you're wondering, no  
I haven't thought about you  
Since this afternoon

If you're just stopping by, go  
I got so many interesting things to do  
But not with you [boo-who]

I got one foot in front of the other  
All I know is what I know  
And the one thing left that keeps me together  
Will get me over or won't change nothing at all

I couldn't be more over you  
[Instrumental Break]

I got one foot in front of the other  
All I know is what I know  
And the one thing left that keeps me together  
Will get me over or won't change nothing at all (x2)

I got one foot in front of the other  
One of us does not like the other  
One of us is not like the other
