You hold me close  
And whisper love  
Your hand in mine  
More than enough

Love will find you  
Love will find you in my arms  
Love will find you  
Love will find you in my arms

These battlescars  
Know the road my heart has traveled on  
But this love is strong  
And you will carry me home

Love will find you  
Love will find you in my arms  
Love will find you  
Love will find you in my arms  
I belong to you alone

We could hold the world, watch it fade  
But I swear to you, love remains

Love will find you  
Love will find you in my arms  
Love will find you  
Love will find you in my arms  
I belong to you alone
