The sun sinks into a sea of light
It is drowned by the coming night
Crystal clear in every shade
Like all the lines there that we made

It's a simple life
It's a simple ground
It's the, the only thing there that I found

Let me down sweet child
Let me down now on your hands
Let me down sweet child
Oh, let me down

You can break the silence with a heavy ring
You can make me some music so I can sing
Mmm...And what is coming,
Yeah, it was never really gone
Just like every key now of every song

It's a simple life
It's a simple ground
It's the, the only thing there I found

Don't fade on me
Don't fade on me
Don't fade on me
Don't fade on me

Yeah uh huh
Oh oh
Mmm mmm
Don't fade

Every line of this never ending sky
Is all around you tonight
I see flowers bloom in these gardens of pain
It is washed away now by the rain

It's a simple life
It's a simple ground
It's the, the only thing there I found

Let me down now sweet child
Oh let me down now on your hands
Let me down sweet child
On your ground

What stands before you is shadows left behind
You know they, they live in places hard to find
Yeah well the, the truth is I never really knew
You can search forever then it finds you

It's a simple life
It's a simple ground
It's the, the only thing there I found

Let me down now sweet child
Let me down now upon your hands
Let me down sweet child
On your ground

Mmm-mmm
Singin Mmm-mmm
Mmm-mmm
On your ground
