Ready for confession.
I don't care
who will hurt me again.
Be my inspiration,
Follow me
let's start the game.

Give me the reason
to live and breath,
Uninstall my enemies.
Give me the reason
to live and breath,
Uninstall my enemies.

Searching for salvation,
I don't know
who will hurt me again...
Disgusting satisfaction,
It's killing us, we have to quit the game

Give me the reason
to live and breath,
Uninstall my enemies.
Give me the reason
to live and breath,
Uninstall my enemies.

Uninstall my enemies.
Give me the reason to breath...

It's not so bad to break the rules,
Use your brain,
just keep your own way,
and forgive me again...

Uninstall my enemies.
Give me the reason to breath...

I'm ready for confession...
