Something's wrong
The world's turned inside out
Something's wrong
Deep, deep underground
Someone dark turns the planet upside down
Iron Worm is crawling underground

Army of demons
Raise to destroy
(come on, practice to hide, bury yourself and enjoy)
Army of demons
Raise to destroy
(come on, practice to hide)

Do you hear that noise?
Do you hear that noise?
No time's left
Till the end of days
Make your choice
Do you hear that noise?

Demons are working
Beneath the surface
Demons are working
Beneath the surface
Demons are working
Beneath the surface
Beneath the surface of the Earth

Chorus:
No place to hide
No place to hide

Filth eats you from the inside

No place to hide
No place to hide
Filth eats you from the inside

Sour times
Sour time's coming

Chorus:
No place to hide
No place to hide
Filth eats you from the inside

No place to hide
No place to hide
Filth eats you from the inside

Do you hear that noise?
Do you hear that noise?
No time's left
Till the end of days
Make your choice
Do you hear that noise?

Demons are working
Beneath the surface
Demons are working
Beneath the surface
Demons are working
Beneath the surface
Beneath the surface of the Earth
