I never thought I'd want to feel alone so bad
Scrutiny tightens it's grip around my neck

Chorus:

I got it now, I can't turn back there's no more secrets
Page by page, all eyes on me, oh, look at what I've
done

I got it now, I can't turn abck there's no more secrets
Page by page, all eyes on me, oh, look at what I've
done

I never thought I'd want to feel alone so bad
I'm strangled by the cables that lead directly to your
eyes

Can't keep a SECRET
