I'm moving  
With the light  
I'm opening up inside  
Can't live with half a heart

My body knows the game  
The keeper of my flame  
I'm turning two to one

Look around  
Up and down  
All of this is infinitely you  
Look around  
Underground  
All of this is infinitely you

A whisper in my ear  
The sound of fading fear

My music tells it all  
Come closer take my hand  
No need to understand  
You're coming back home

Look around  
Up and down  
All of this is infinitely you  
Look around  
Underground  
All of this is infinitely you

Look around  
Up and down  
All of this is infinitely you  
Look around  
Underground  
All of this is infinitely you
