welcome to a different place  
show you the world in a million ways  
come see the fallen race  
Show you the scars of yesterday

i, beg you to open up your eyes  
beauty infected by flies  
an ego-trip simply arise  
rational no more  
only diluted ignore

Hey, what ever happened to us?  
where did we all fall apart?  
when did the leaves fall off?  
cherish carnal just how we were told

i, beg you to open up your eyes  
beauty infected by flies  
an ego-trip simply arise  
rational no more  
only diluted ones ignore  
We cherish carnal as gold  
cherish just what we were told
