Stop, stop running away, just look and find (?)
There's no reason to hide your face
I know there's pain, just give it time
It's easy to say, but you're not alone, I hope you know
There's more than what you're feeling now
Stop running away, it's your time to shine

No matter what you say, no matter how it seems, want
You to know you're perfect to me
There's more to who you are, there's more than what
you
See, want you to know you're perfect

Stop, stop living ashamed, your eyes to the ground,
you
Gotta lift your head up now, look over the doubt, don't
Let it keep you down

I know it's easy to say, but you're not alone, I hope
You know there's more than what you're feeling now
Stop running away, it's your time to shine

Chorus

Just push it all away, every old mistake, there's new
Life to be found
Today's another day, another chance to take, you're
Starting over now, over now

Chorus

You're perfect, you're perfect, oh you're perfect to me
There's more to who you are, there's more than what
you
See, want you to know, want you to know you're perfect
Want you to know
Oh you're perfect to me
