Come with me
Let's go, right now
I need you next to me
So hot, so fine
You always said be free
Close your eyes, feel it inside
Let the music guide your way
Close your eyes, you look so fine
Here it's where I wanna stay

There's so I feel when you're around
Please stay and dance forever
I need to know you'll never leave
I won't resist if you still good

There's so I feel when you're around
Please stay and dance forever
I need to know you'll never leave
I won't resist if you still good

Don't break my heart, it's not up steal
I'm burning for you
You seem too good to be for real
Yeah you make my dreams come true

Don't break my heart, it's not up steal
I'm burning for you
You seem too good to be for real
Yeah you make my dreams come true
My dreams come true

There's so I feel when you're around
Please stay and dance forever
I need to know you'll never leave
I won't resist if you still good

There's so I feel when you're around
Please stay and dance forever
I need to know you'll never leave
I won't resist if you still good
