Dimension HELL!

I passed the gate and gained a shadow
Forever to haunt me
Never alone but a binary self
Together holds me

Dimension HELL!
Through the star reflector
Dimension HELL!
In the ends of darkened universes
Dimension HELL!

Dressed with the passing of centuries countless
A world against his myth

The light
Of million stars
Forming alien constellations
Lurked
Through the dead suns searching
Mass
To exploit it's energy

A world against his myth

Through the dead suns searching
Mass

Dimension HELL!
