Wakin'™ up in someone else's™ bed,
Was what I was waitin'™ for
Oh my days what have I done,
She saw me sneakin' out the door
What have I been waitin' for,
Been wastin' all my time
Watchin'™ my youth slip away
Surely is a crime
I know, she don't™ know what we do in our spare
time
No she don't™ know that we've™ been up all night
All night, all night, all night
[Chorus x2]
We go on and on and on and on and on
Never knowing where, never knowing where
We gonna, we gonna, we gonna end up in the morning
Sun is out while I'm walkin'™ home,
But my heads up in the clouds
Tryin' to get myself to bed
But I really don't™ know how,
And no, she don't™ know what I do in my spare time
No she don't™ know that we've™ been up all night
All night, all night, all night
[Chorus x2]
We go on and on and on and on and on
Never knowing where, never knowing where
We gonna, we gonna, we gonna end up in the morning
When I get myself home to my bedroom,
I'm gonna sleep all day, til the sun sets
[x4]
[Chorus x2]
We go on and on and on and on and on
Never knowing where, never knowing where
We gonna, we gonna, we gonna end up in the morning
