I've got a story to tell
about a boy
who never bought what they sell
beaten bruised broken
went through all of this hell
just to break down the door
of the music cartel

there's a time
in the back of my mind
told ya twice
i'm leaving nothing behind
i've burned every last dollar
spent every last dime
just to make the ascent
the hardest part is the climb

it's all or nothing
when you got nothing at all
it's all or nothing
cause i'm not gonna fall

Now Everybody in the club
wants to know who I am
be fly like I am
make the girls say hott damn
they got cameras flashing round me
everybody's my fan
don't you know who I am
don't you know who I am

this is it
the stars align on the floor
flashing lights
people screaming for more
i got the red carpet treatment
when i walk through the door
I'm the headline story
the biggest score

it's all or nothing

when you got nothing at all
it's all or nothing

cause i'm not gonna fall

Now Everybody in the club
wants to know who I am
be fly like I am
make the girls say hott damn
they got cameras flashing round me
everybody's my fan
don't you know who I am
don't you know who I am

Now Everybody in the club
wants to know who I am
be fly like I am
make the girls say hott damn
they got cameras flashing round me
everybody's my fan
don't you know who I am
don't you know who I am

hey hey
you never saw this coming did ya
hey hey
want it to last then take a picture
hey hey
I'm not backing down
I've got the keys to the city
I run this town
Now Everybody in the club
wants to know who I am
be fly like I am
make the girls say hott damn
they got cameras flashing round me
everybody's my fan
don't you know who I am
don't you know who I am

Now Everybody in the club
wants to know who I am
be fly like I am
make the girls say hott damn
they got cameras flashing round me
everybody's my fan
don't you know who I am
don't you know who I am
