I wanna save my life right now
I'm stopping this game
Let the choices play out
And if I don't like the outcome

I'll try again

I'd like to pause this for a moment
And I don't think that you'd oppose
And I wish I could freeze time and space
Like Hiro from Heroes

'Cause I wanna be able to
Teleport back to this spot
Whenever I want you

A super awesome hero that can
Teleport back to this spot
Whenever you need me

But I need you

I wanna save my life right now
I'm stopping this game
Let the choices play out
And if I don't like the outcome

I can't do this here on my own
How can I save Princess Toadstool alone
'Cause if you're not here with me

I'll try again

I know I'm not the same without you
And I think you need me too
But don't think that for a moment
I wouldn't bail out to save you

Just like Sawyer jumped out of a plane to save his crew
I'd throw my fat ass off that place.
If meant seeing you again in Level 2
When we take down Benjamin Linus

'Cause that guy's a douche

Remember when we were younger and pretended to be
Teenage Mutant Ninja Turtles
I was Michelangelo 'cause he
Likes pizza and he likes to party

Anyways, you'd always be Raphael
'Cause he's super tough like I always thought you were
Shredder never stood a chance
Fighting against us

COWABUNGA dude

I wanna save my life right now (right now)
I'm stopping this game
Let the choices play out (play out)
And if I don't like the outcome

I'll try again

(Right now) I wanna save my life right now
'Cause if you're not here with me (right now)

I'll try again

I just need to save
This moment forever

I'll try again
