"Snow Day"

Visit "[Snow Day](#)" on MotoLyrics.com

Open my eyes start to get out of bed.
Throw back the curtains to see a white spread
I feel like I'm ten it has snowed once again
Let's go have some fun the days only begun

I'll see this through, I will turn my hands blue
Mister snowman, my heart is beating for you

It's a school day school is closed
Gonna go outside and make a snowman there
Wanna join me in the field?
Better use your sled for a shield

'Cause there's a snowball coming your way
Coming your way
Coming your way

Flying down hills I am feeling the thrills
I'm sailing through snow like I did long ago
My friends are behind me
I'm winning this race
'Til I come off sideways and land on my face

I'll see this through, I will turn my hands blue
Mister snowman, my heart is beating for you

It's a school day school is closed
Gonna go outside and make a snowman there
Wanna join me in the field?
Better use your sled for a shield

'Cause there's a snowball coming your way
Coming your way
Coming your way

Ohhhhh

Look out, Luke!
I'm telling mom!

Flying down hills

Feeling the chills
I'm sailing through snow like I did
Long ago

It's a school day school is closed
Gonna go outside and make a snowman there
Wanna join me in the field?
Better use your sled for a shield

'Cause there's a snowball coming your way
Coming your way
Coming your way

It's a school day school is closed
Gonna go outside and make a snowman there
Wanna join me in the field?
Better use your sled for a shield

'Cause there's a snowball coming your way
