Think that I'm in love with you
And there's nothing more that I can do
But every breath I take
Longs for you

Remember when we used to find ourselves without
interruption
We'd be just playing guitar, making melodies,
And strumming along with the beat

Singing how we hate the world the pain
But together we can start a band without a name

I'll sing the lows, you sing the highs
We'll sing until our voices are dry

I think that I'm in love with you
And there's nothing more that I can do
But every breath I take
Longs for you

It's not the same without you here
And I'm trying to persevere
But even when you're so far away
I love you
I love you

Remember the time that I picked you up from the
airport
I was just waiting by my car, smile on my face,
And my heart was all in a whirl

Thinking how the hell did I end up here
My heart was closed but now I want you near

Then you wrapped your arms and I held you tight
I had the feeling we might make some music tonight

I think that I'm in love with you
And there's nothing more that I can do
But every breath I take
Longs for you

It's not the same without you here
And I'm trying to persevere
But even when you're so far away
I love you

Just to hear you sing
The joy your song brings
That would be music to my ears

Your voice is so far away
This world is so dark and gray
Please let's play that song again

I think that I'm in love with you (Just to hear you sing)
And there's nothing more that I can do (The joy your
song brings)
But every breath I take (That would be music to my
ears)
Longs for you

It's not the same without you here (Your voice is so far
away)
And I'm trying to persevere (This world is so dark and
gray)
But even when you're so far away (Please let's play that
song again)
I love you
