so your job has got you down  
need an antidote for your frown  
when was the last time you had some fun  
your heartbeat is the drum

so much negativity  
on every freakin' channel of your blah blah blah tv  
remember how it used to be  
kids dancin' in the streets

don't ba da da da fade away  
don't la da da da change your ways  
don't ba da da da fade away  
don't la da da da change your ways  
don't ba da da da fade away  
don't la da da da change your ways  
don't ba da da da  
don't la da da da

life's a dance  
so partay, partay, come on nah  
now shake it, move your body  
feel the groove nah, now glide it

life's a dance  
so partay, partay, come on nah  
now shake it, move your body  
feel the groove nah, now glide it

all your friends want to get down  
move their bodies to the sound  
now's the time to have some fun  
fill you hearts with all the love

so much positivity  
in every funky freaky person that you meet  
let the groove set your mind and body free!  
souls floatin' on the breeze

don't ba da da da fade away  
don't la da da da change your ways

don't ba da da da fade away  
don't la da da da change your ways  
don't ba da da da fade away  
don't la da da da change your ways  
don't ba da da da  
don't la da da da

life's a dance  
so partay, partay, come on nah  
now shake it, move your body  
feel the groove nah, now glide it

life's a dance  
so partay, partay, come on nah  
now shake it, move your body  
feel the groove nah, now glide it

BASS!

that's what i'm talking about  
ya dig?  
get into the groove  
woman, man  
get into the groove  
woman, man

my ladies, my gentlemen, noOOoo, my ladies, my  
gentlemen, my gentlemen

life's a dance  
so partay, partay, come on nah  
now shake it, move your body  
feel the groove nah, now glide it

life's a dance  
so partay, partay, come on nah  
now shake it, move your body  
feel the groove nah, now glide it

stockholm to vancouver  
we creatin' a nu blend, a nu trend, a nu blend  
life ain't about your 9-5, life ain't about that job!
