i can be so strong and weak in your love  
oh it scares me half to death how crazy i am

overjoyed to make love to ya  
overwhelmed to share my light witcha  
don't mean to get too heavy on ya

oh you're welcome to me  
come now  
won't ya come inside me  
my love  
oh you're welcome to me  
come now  
on ya see right thru me  
oh oh no  
oh you're welcome to me  
come now  
won't ya come inside me  
my love  
oh you're welcome to me  
come now  
on ya see right thru me  
oh oh no

what ya givin' is what i'm needin'  
la la lovin' give it all to me!  
what ya givin' is what i'm needin'  
la la lovin' give it all to me!

when i'm feelin' alive can only speak my truth  
oh it's so easy - my passion, my passion's proof!  
you smile and heavens part  
ya make me laugh, planets swirl

ya give it back, give it back, give it back to me one  
thousand fold

oh you're welcome to me  
come now  
won't ya come inside me

my love

oh you're welcome to me  
come now  
on ya see right thru me  
oh oh no  
oh you're welcome to me  
come now  
won't ya come inside me  
my love  
oh you're welcome to me  
come now  
on ya see right thru me  
oh oh no

electric conversation  
expressin' free  
oh ya got me questionin' everything  
just wanna thank ya for breakin' me  
oh its got us pushin' boundaries  
oh it might be frightenin', this is our release  
who said hings happened instantaneously  
just wanna bring it on as LARGE as this planet  
gotta bring it on, heavy like we first started

oh you're welcome to me  
come now  
won't ya come inside me  
my love  
oh you're welcome to me  
come now  
on ya see right thru me  
oh oh no  
oh you're welcome to me  
come now  
won't ya come inside me  
my love  
oh you're welcome to me  
come now  
on ya see right thru me  
oh oh no
