I run from the people I love
I will always stay true for my heart
Too far from the misery I was left here by the sea
I am so tired of the colour of fear will I ever be release
It all excess probably . carry me though the fear
I am here with the words
I will always stay true to my thoughts
I wanna become what people become but I wanna stay
here
I wanna be calm will I ever be calm will I ever stay here
Time to be . your head on me
I like to be watch stay . your head on me
My fear is a . fear like the suffer and pain in my heart
Is all there because it's all that I am
I can identify the pain like .
It's been there from the start I will always stay true to
my thoughts

I know you really want . your head on me
I let you . your head on me
Will love destroy me?
Will love destroy me?
Will love destroy this weeping heart of mine
this weeping heart of mine
this weeping heart of mine
I wanna become what people become but I wanna stay
here
I suffer and harm better keep it all going but I know
stay here
I know you really want . your head on me
I let you . your head on me
Will love destroy me?
Will love destroy me?
Will love destroy this weeping heart of mine
this weeping heart of mine
this weeping heart of mine
