Hey here we go, even we even so
Hey here we go, ever fast ever slow

Alas we aspire, feel the flame carry fire
Alas we as fire, feel the flames
Take me higher

Where are you now, ooh [x3]
Where are you now

Look through my words, I'm mine you're yours
Look through my words, you're mine I'm yours

Where are you now, ooh
I am so lost till you're found
[x3]

Where are you now [x2]

Rain cleared the wood
Shallow light there you stood
Rain cleared the wood
Turned my eyes there you stood
