You make me believe  
In something better  
You make me believe  
I really could  
You make me believe  
That something special  
Just 'round the corner  
For us

It just takes a little  
It just takes a little, darling  
It just takes a little of you  
To make it good

We've got time  
To figure it all out  
So wash away your worry  
And little doubts

Down the gutter  
Sail onto the sea  
Far, far away  
From you and me

It just takes a little  
It just takes a little, darling  
It just takes a little of you  
To make it good  
[x3]
