Sun's set...
I've waited for you all day
I've waited for you all day
My love
So come quick...
I'm ready for you always
I'm ready for you always
My love

Youuuuuuuuuu-uuuuuuuuuuu,
Just you, just you, just you, just you

Hear me out...
Hear my feelings out loud
I'm runnin' over love clouds
To you
Blue moon...
Is shining there for us now
It's followin' us around
The room

Youuuuuuuuuu-uuuuuuuuuuu,
Just you, just you, just you, just you
Youuuuuuuuuu-uuuuuuuuuuu,
Just you, just you, just you, just you

Sun's set...
I've waited for you all day
I've waited for you all day
My love
